

I think the whole idea sucks. I pay for xm radio so " I " can listen to what ever I want. I'm passing this along to all my friends who have xm. I voted for Charles Pickering, but i tell you this I will not vote for him again. The fcc has to stop this outrage and let the people of this country vote on what we watch and listen to. Stop trying to force your own views on the people of this great country. The last time I checked, hold up....Yup we still are a free country.
